Subject: Docket Number: FMCSA-2001-9800-49

I would like to comment on the intent to issue exemptions on the regulation of 49CFR 391.41 (b) (3)

I am in favor of issuing exemptions for insulin-using diabetics driving on our highways. In most cases, I feel that insulin-using diabetics take very good care of themselves.

As long as these individuals have regular checkups with certified doctors and check blood sugar levels regularly, I feel they are no more a threat to our highways than any other individual.

Please give these individuals a chance to prove that they are just as safe with insulin as they were before becoming insulin dependent.

Thank you for your consideration,

John Seye
